

Discover the world of variable sitting.

Conventional seating is a thing of the past with the introduction of exquisite European sitting at any angle. The Muvman is the first variable seat in the world. This means you're able to adopt optimum posture at different heights, in any seated position. This makes it perfect for those working at higher desks such as receptionists or architects. **Enjoy sitting satisfaction whatever the inclination.**

- **Strengthened core as a result of being in motion**
- **Reduction in spinal pressure resulting in a comfortable sitting position**
- **The variable standing/sitting allows for longer and more productive work**
- **Constant movement allows for blood circulation to relieve pressure**

Features

- Enormous height adjustment range, from 51cm to 84cm
- Controlled smooth movement
- Active pressure relief zones in the seat
- Optional high column 60-93cm
- Stable baseplate with non-slip rim preventing unintentional slipping
- Easy-Touch buttons under the seat for right and left handed users
- Practical carrying grip for mobility
- 120kg weight limit

Colours

- BASE: Silver, Black
- SEAT: Grey, Black, Blue, Green
